

# Psychic Business Check In

## Three questions for practicing psychics and mediums

Take five minutes to examine the business behind your sessions. Write honest answers using actual numbers where you can. These questions are adapted from The Six Figure Psychic participant workbook.

Name \_\_\_\_\_ Date \_\_\_\_\_

### 1 The income behind your price

**After expenses and all the time you put in, what does one session actually pay you per hour?**

Include preparation, messages and follow-up. Use money left after business expenses, before personal taxes. If you do not know yet, write what you need to track.

---

### 2 The reason someone chooses you

**What would make a suitable client choose your session, and can you explain it in two clear sentences?**

Describe who you serve, what happens in the appointment and what is included. Be specific without promising an outcome you cannot guarantee.

---

### 3 Your plan when bookings slow

**If no new bookings came in next week, what specific action would you take, and how would you know whether it worked?**

Name the audience, the offer, how you would reach people, the booking step and the result you would measure.

---

### Your next step

Circle the question that was hardest to answer. That is a useful starting point for improving your business.

### Build your plan in The Six Figure Psychic

Six-week business masterclass with Troy Griffin. Work on pricing, session structure, confidence, professional boundaries, social media, email, events and a 90-day plan for marketing and bookings.

Ask Troy about the masterclass at [www.psychicmediumtroy.com](http://www.psychicmediumtroy.com)

Business training for practicing professionals. Six figures is a goal, not a guaranteed income.
